

## Learning Goal

Practice skip-counting by 2's.

## What You'll Need

- Empty boxes
- 2 sheets of black paper + other colors
- Markers
- Colored pencils
- Chalk
- Index cards
- Glue
- Tape
- Small toys, stickers and other fun decorations

## Steps

- 1. Make a night sky!** Tape up two sheets of black paper for the background. Decorate your night sky with markers, colored pencils, chalk or stickers.
- 2. Build skyscrapers!** Trace, cut and glue construction paper to cover each box. Add windows to your buildings by cutting index cards into small squares and gluing them onto the boxes, two by two.
- 3. Count by 2's!** Add small toys to your city, such as tiny cars and small dolls. Shine the flashlight on the skyscrapers and count the windows by 2's. Two, four, six, eight!

## Watch Video

## Talk Together

- What other parts of your city can you count by 2's?
- How many buildings do we have? Let's see if we can count them by 2's.

## Book Suggestion

***Sheep Won't Sleep: Counting by 2's, 5's, and 10's,***  
by Michael Dahl and illustrated by Todd Ouren
