

## Learning Goal

Practice counting 1-7.

## What You'll Need

- 7 feathers
- 1 paper plate
- Yarn
- Glue
- Tape
- Markers
- Googly eyes
- Plastic kazoo (optional)

## Steps

- 1. Make a duck face!** Glue seven feathers to the top of the plate. Write the numbers 1 through 7 below the feathers. Draw a triangle beak or cut a triangle and glue it on the plate. Add googly eyes. Now you have a duck face!
- 2. Make a necklace!** Cut a long piece of yarn and knot the ends together to make a yarn necklace. Punch a hole at the top of the plate, among the feathers. Thread a loop of the necklace through the hole, then thread the other end of the necklace through the loop.
- 3. Practice counting!** Wear the duck necklace and practice counting from 1 to 7 by quacking after saying each number. If you have a kazoo, make duck sounds with it! 1, quack, 2, quack ...

## Watch Video

## Talk Together

- What other numbers do we need to make our duck necklace go up to 10?
- If you add 3 and 4 feathers, how many feathers do you have?  
7!
